

A free home-learning programme for your families — a partnership, not a pitch

Bloom Juniors is a British EYFS learning app — systematic synthetic phonics, early maths and living stories — built in Dubai and offered **completely free to your families, permanently**. We're inviting a small group of independent British-curriculum nurseries to be founding pilot partners this term.

EYFS · KS1

British curriculum, incl. all 44 phonics sounds

0 ads

No ads, no in-app purchases, no child data collected

10 min/day

One guided daily journey — not another screen-time app

AED 0

Free for pilot nurseries & their families, forever

YOUR NURSERY RECEIVES

- ✓ **Full free access for every family** — a home-learning programme you offer as part of your parent partnership
- ✓ **Done-for-you parent pack** — one WhatsApp message and a printed note; nothing for your staff to manage
- ✓ **Monthly engagement summary** — evidence of learning-at-home partnership for KHDA inspections
- ✓ **A voice in the product** — pilot nurseries' requests go to the top of the roadmap

ALL WE ASK

- Share the parent pack with your families once
- 15 minutes of honest feedback at mid-term
- A short testimonial at term end — only if you're genuinely happy

NO CATCH — THE HONEST VERSION

- Bloom Juniors stays free for families: no ads, no tracking, ever
- The future business is optional extras for parents and school licences — pilot partners are locked in free

Why this exists: Bloom Juniors was built by a Dubai dad for his own daughter, after finding every phonics app was either full of ads, tracking children, or behind a paywall. It grew into a complete EYFS/KS1 programme — one daily adventure with Yaagvi the companion, real treasures to earn, and a Parent Zone that shows exactly what your child practised and mastered.
