

A supported 30-day home-learning pilot for your nursery families

Bloom Juniors is a British early-learning app with systematic synthetic phonics, early maths and stories. Built by a Dubai parent, it gives each family one short guided learning journey. We are inviting three Dubai nurseries to help test and improve a supported pilot for children aged 3–5.

EYFS · KS1

British curriculum, incl. all 44 phonics sounds

Child first

No child email accounts, ads, in-app purchases or data sales

10 min/day

One guided daily journey, not another screen-time app

30 days

Supported setup, aggregate reporting and a review

YOUR NURSERY RECEIVES

- ✓ **A ready-made parent pack**, with a WhatsApp message and printable note
- ✓ **Setup support** for your team and participating families
- ✓ **An anonymised, aggregate summary** of 30-day engagement
- ✓ **A voice in the product** through a short review of results and feedback

ALL WE ASK

- Choose one nursery contact for the pilot
- Share the prepared invitation with participating families
- Join a 15-minute review after 30 days

CLEAR AND CHILD FIRST

- Families keep free access after the pilot
- Learning progress is stored securely; personal data is not sold or used for advertising

Why this exists: Bloom Juniors was built by a Dubai dad for his own daughter, after finding many phonics apps were interrupted by ads or locked behind a paywall. It grew into a complete EYFS/KS1 programme: one daily adventure with Yaagvi the companion, real treasures to earn, and a Parent Zone that shows exactly what your child practised and mastered.
